### About the Warren County Engineer

*County Engineers in Ohio are required by law to be registered as both Professional Engineers (P.E.) and Professional Surveyors (P.S.) They are responsible for the maintenance and construction of county roads and maintenance and construction of bridges on county roads, township roads, and certain streets within municipalities. They are also responsible for maintaining land surveying records, checking the accuracy and adequacy of recorded land transfer documents, and establishing or re-establishing certain land survey monuments.*
